# China's continuous build-up matter of concern: Army chief

Army chief Naravane said if the Chinese military maintains the deployment through the second winter, it may lead to a LoC like situation

PRESS TRUST OF INDIA  
New Delhi, October 9

THE MILITARY BUILD-UP by China in the eastern Ladakh region and new infrastructure development to sustain the large-scale deployment are matters of concern and India has been keeping a close watch on all the

India to ramp up production as new Indian vaccines come on stream

India has informed the UN that it will ramp up its production capacity as new Indian vaccines come on stream, emphasising that the supply chains of raw materials must be kept open as Covid-19 vaccines need to reach every corner of the globe. India's permanent representative to the UN ambassador T S Tirumurti said that India has provided medical related assistance and subsequently, vaccines to numerous countries all over the world. "We meet at a time when the Covid crisis is nowhere near the end. However, with the introduction of vaccines, there is hope that we will finally be able to turn the corner," he said while speaking at the UN General Assembly General Debate of the Second Committee.

Chief of the Army Staff General Manoj Mukund Naravane

Indian and Chinese militaries have been on a standoff in several areas along the Line of Actual Control in eastern Ladakh for nearly 17 months

activities by the Chinese PLA, chief of army staff Gen MM Naravane said on Saturday. He said if the Chinese military maintains the deployment through the second winter, it may lead to a LoC-like situation (Line of Control) though not an active LoC as is there on the western front with Pakistan. The chief of army staff said if the Chinese military continues with its deployment, the Indian Army too will maintain its presence on its side which is "as good as what the PLA (People's Liberation Army) has done". Indian and Chinese militaries have been on a standoff in several areas along the Line of Actual Control (LAC) in eastern Ladakh for nearly 17 months though both sides disengaged from a number of friction points this year following a series of talks. "Yes, it is a matter of concern that the large-scale build-up has occurred and continues to be in

place, and to sustain that kind of a build-up, there has been an equal amount of infrastructure development on the Chinese side," General Naravane said. "So, it means that they (PLA) are there to stay. We are keeping a close watch on all these developments, but if they are there to stay, we are there to stay too," he said. General Naravane said the build-up and the infrastructure development on the Indian side are as good as what PLA has done. "But what this would, especially if they continue to stay there through the second winter, definitely means that we will be in a kind of LC (Line of Control) situation though not an active LC as is there on the western front," he said. "But definitely, we will have to keep a close eye on all the troop build-up and deployments to see that they do not get into any misadventure once again," the army chief said. He

also Naravane said it is difficult to understand why China triggered the standoff when the world was reeling under the Covid-19 pandemic and when that country had certain issues on its eastern seaboard. "While all that is going on, to sort of open up one more front is very difficult to understand or fathom," he said. "But whatever it might have been, I do not think they have been able to achieve any of those because of the rapid response done by the Indian armed forces," the army chief added. Commenting on the overall situation in eastern Ladakh, the General referred to a recent statement by a spokesperson in the ministry of external affairs and said he had clearly mentioned that whatever has happened on the Northern border is because of the massive build-up by the Chinese side and the non-adherence to various protocols.

## India, China military talks to address standoff

INDIA AND CHINA will hold another round of high-level military talks on Sunday with a focus on making some forward movement in the disengagement process in the remaining friction points in eastern Ladakh, government sources said. The talks are scheduled to start at 10.30 am at the Moldo borderpoint on the Chinese side of the Line of Actual Control (LAC) in eastern Ladakh.
